OFFICE OF AIR AND RADIATION

Climate Protection Partnerships Division  
U.S. EPA 6202J  
Washington, DC 20460

To: Innovative Insulation, Inc.  
6200 West Pioneer Parkway  
Arlington, Texas 76013

Date: August 10, 2006

To Whom It May Concern,

This letter is to confirm that Innovative Insulation, Inc. is an ENERGY STAR Insulation Manufacturer Partner because they have met the requirements for their Super R™ line of radiant barrier products. You can confirm this by checking our on-line list of insulation manufacturers who are partners at [www.energystar.gov/homesealing](http://www.energystar.gov/homesealing) .

The ENERGY STAR Program believes that radiant barrier products can save on cooling costs when correctly installed in house attics in hot, sunny climates. Both the US Department of Energy's Oak Ridge National Laboratory (ORNL) and the Florida Solar Energy Center (FSEC) have documents describing how much energy a homeowner would likely save with a radiant barrier. Please check out these web sites:
